Fencing project at West Walker Sportsmans Club begins

The project will consist of erecting a high ten feet fence around the perimeters of the club's properties. The fence will inhibit people from gaining access to the club's lands behind the shooting ranges. Safety is our number one goal. A number of charter members and a non-member volunteered their time on two weekends to clear club property so the commercial fencing company can begin. It is amazing how thick the underbrush was and the number of trees that had to be removed. The group used machetes, weed whackers, a chainsaw, ATV with winch, the Club's Ford tractor with a brushhog on the back and good old human brute strength. The picture above shows one of the cleared right-of-ways after the group finished.
