NRC Approves Michigan Wolf Season

The Natural Resources Commission approved a limited wolf hunting and trapping season for Michigan's UP. The first hunt will be conservative, limited to 43 wolves among 3 areas, which were determined by nuisance complaints and depredation events.

1,200 licenses will be available for sale from Aug 3 – Oct 31. The license costs \$100 for residents and \$500 for non-residents. Proof of a hunter safety certificate or previous hunting license must be shown at the time of purchase.

Hunting starts Nov 15 and ends Dec 31, or whenever the desired unit harvest is met, which ever comes first. Any legal hunting device, including firearms, archery, and crossbows, will be allowed for hunting as well as the use of foothold traps, on both public and private land. Once the harvest is met (or expected to be met imminently) for an area, the entire area will be closed for the season.

Hunters will be required to report successful harvest by the end of the day via a designated phone line and also check in within 3 days to a DNR check station to allow them to collect biological information. Hunters will be required to check daily online or by calling in to see if any areas have been closed.

5 Stand Now Open

Our Charter Members have been working diligently on the 5-stand, and it is now open. There are 5 shooting stations that overlook the pond, and targets will be thrown in 8 different patterns.

Currently, it takes some effort to set up, run, and tear down each time we use the 5-stand, and we need to rely on our charter members to volunteer their time. We are working on purchasing more throwers, protective housing and a few other things to make this process less labor intensive. Until this process is complete, and we can offer the 5-stand on a consistent basis, please check the shooting room for days the 5-stand will be available to shoot, or call ahead to check if it's open.
