

Steel Plate Shoot August 2000 Report

Practical Steel Plate

Shooting Is Drawing

More Shooters

The "Steel Plate" Shoot Saturday August 12 was busier than normal. It seems the word is spreading. With 30 registered shooters and quite a number of spectators it was a busy day for the volunteers at the event. The bad news is the shooters had a long wait between their turns on the course of fire. (The pistol

committee will look into what may be done to decrease the wait time, and we thank all the shooters for their patience.)

The course of fire was definitely a challenge this time, with fencing for obstructions and a longer than normal distance from start to finish. The course did not slow down Carl Deering,

as he made the fastest pass at 15.13 seconds followed by Buck Osterberg and David Carlisle with 17.87sec. each, followed very close behind by Jeff Wiersma with 19.05 sec. Great times guys! I would like to thank all the folks for coming out and

thank Scott Larabel for commandeering the tents, the shade was appreciated by all.
